

# Good Practice Made Perfect™

SPGL is a professional consulting and technical services organisation that offers an experienced and dedicated commissioning and qualification (C&Q) and regulatory compliance capability,

servicing the complete needs of the biopharmaceutical, vaccine, medical and diagnostic device, healthcare and regulated industries. Our core competency is Managing Quality and our vision is

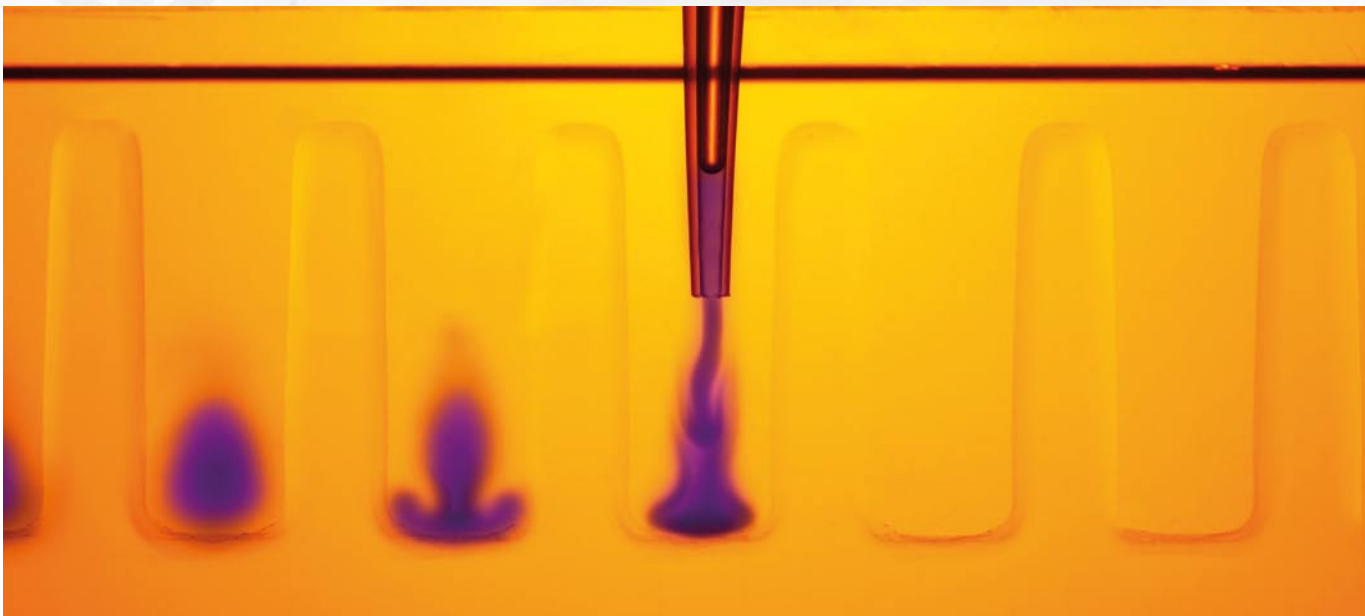

Improving Performance for our customers hence improving efficiency and productivity.

Quality means meeting the requirements of all customers. Our regulatory and good practice know-how, combined with our risk management experience, helps clients to achieve the most cost-effective compliance. We excel in project execution and serve as a strategic partner.

Our knowledge of the regulations, combined with our ability to integrate engineering, construction, commissioning and validation, reduces our clients' time to market.

**Dedicated to making customers successful by adopting a risk-based approach to commissioning & qualification. We anticipate, analyse and manage every aspect of risk throughout the project lifecycle.**

## MANAGING QUALITY IMPROVING PERFORMANCE
